- 5) ☐ Notice of Informal Patent Application (PTO-152)
- 6) ☐ Other: _____.

The disclosure is objected to because of the following informalities: In lines 5 of claims 1 and 9 there is lack of antecedent basis for "the circumference" nor is it clear what circumference is being referred to. Claim 12 should depend from claim 11 in order to provide proper antecedent support for the recited elements.

Appropriate correction is required.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 7, 9, 10 and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by Leeuwestein (U.S. Patent 3,737,050).

Leeuwestein shows a rotating shaft 14, a support member 12 rotatable around shaft 14, at least one accommodating unit 8 for accommodating and surrounding articles 2, a driving device 24, and accommodating unit 8 is provided on a shaft 46 which is inclined relative to shaft 14.

Re claim 2, there are a plurality of accommodating units 8 and 10.

Re claim 7, an incline of 45 degrees is shown for shaft 14 and shaft 46 is at a 45 degree angle relative to shaft 14.

Re claim 9, articles 2 are stick like and their alignment is changed from a vertical delivery to a horizontal push out.

Re claim 10, shown are a plurality of accommodating units.

Re claim 15, the claimed inclinations are shown in the Figures.

Claims 3-6, 8, 11-14, 16 and 17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Applicant's arguments with respect to claims 1, 2, 7, 9, 10 and 15 have been considered but are moot in view of the new ground(s) of rejection.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
